

## New FINEMotor PRO™ 2025 WITH FEA OPTIMIZER

- Automatic Optimizing of Pole Extension + Pole Undercut
- Automatic Optimizing of Pole Undercut diameter
- Automatic Optimizing of Neodymium Motors:
  - Automatic Optimizing of Cup Undercut diameter
  - Automatic Optimizing of Cup Extension
  - Automatic Optimizing of Top Neo diameter and thickness
- FEA Calculation of  $L_e(x)$  with Shorting Rings in optimized motors
- FEA Calculation of  $L_e(x)$  with Shorting Rings at frequencies
